
Noticing for Guess, Calculate, and Check (Guided Small Groups)

Step 0: Begin by filling out an I Notice, I Wonder chart.

Step 1: Circle the *quantities*. Make sure you write the name of the quantity for every value you noticed.

Step 2: Next to each quantity write the value or a question mark if the value is unknown.

Step 3: Put an asterisk next to any *constraint*.

I Notice	I Wonder

Step 4: The quantity I will guess for is _____.

The first value I guess is _____.

Calculations:

Check:

Step 5: Look at the result you got for your first guess. How can you adjust the value to get closer to the constraint?

My next guess is _____

Calculations:

Check:

Step 6: My next guess is _____

Calculations:

Check:
