Extra Assessment Tasks
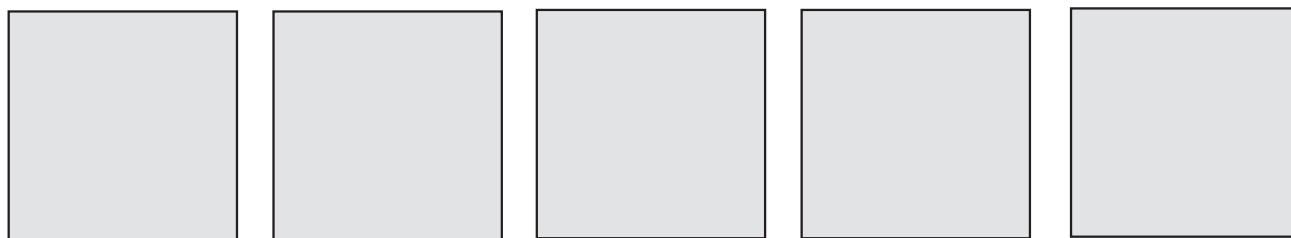

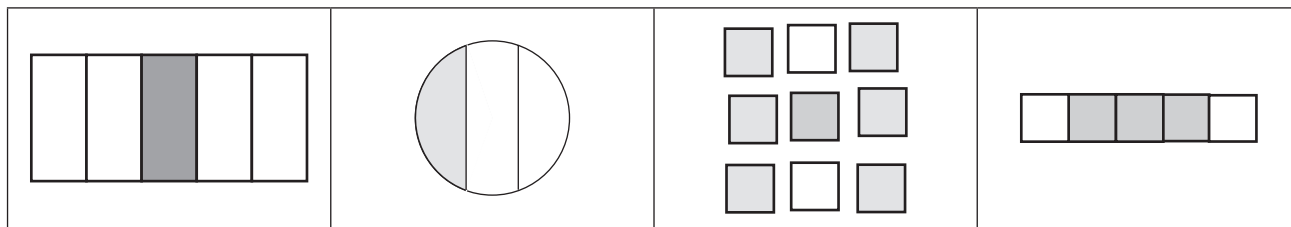

Fractions

18. Four people want to share these 5 cakes equally. Show or tell how much each person gets.

19. Tell what fraction of each shape is shaded.

20. Note: Elementary students cannot figure out the fraction shown in the second example from the left. But the task is still useful for seeing if they mistakenly think it is 1/3.

21. Name the fraction marked by X on the number line. Explain your answer.
