

“Find an Expert” Steps

- 1.** Move to the “dance floor” and wave your paper above your head to signal that you need a partner.
- 2.** When you’ve found a new partner, make sure you can both help fill in a remaining box on each other’s form. If so, then move off the dance floor. Remain standing and discuss.
- 3.** Find a category that applies to your partner, interview them briefly, and write the information in the box.
- 4.** Have your partner neatly sign under your notes. This is the *only* time your partner will write on your paper.
- 5.** Now let your partner interview you on a topic. Be sure to sign the sheet after that interview is completed.
- 6.** When you’re both finished, thank each other and return to the “dance floor” for new partners. You must have a *different* partner for each topic box.
