Climate Change: Exploring Our Understanding of Global Warming

Questions	Preliminary Ideas: <i>Your independent perspective</i>	Pair and Share: <i>Collaborate to combine views</i>	Supporting Our Perspectives: <i>Adding evidence to support our definitions and claims</i>
How would you describe/explain global warming? What is it?			
What do you believe contributes to (causes) global warming? Be specific! You cannot simply say "humans" or "nature."			
What do you think people and/or governments should do about global warming?
